

## CARE INSTRUCTIONS

### METAL FRAME/WOOD

For dusting and light cleaning of the wooden surface and frame use a soft, dry cloth. For further cleaning, use a soft cloth that is firmly wrung in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again. If more thorough cleaning is necessary, use a mild detergent or washing-up liquid dissolved in water on a firmly wrung cloth. Afterwards, repeat the process with clean water as described above. Polish with a soft cloth after wiping. Do not use materials for maintenance that contain abrasive agents or are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt. Furthermore, protect the surfaces against sharp objects and other that might scratch.
