

TUB JUG

ATELIER BLI19 ON THE DESIGN “Taking visual cues from the appearance of a fuel container, we wanted to bring a new expression to the traditional table jug. Through its wide opening and handle, the Tub Jug is a simple and useful object to serve as a carafe, watering can or even a vase. Created in ceramics, the Tub Jug features a clear function when in use as well as an aesthetic presence when placed on the table, a sideboard or shelf.”

ABOUT THE DESIGNER

Atelier BLI19 is a design studio, based in Saint-Étienne, France. Founded in 2007 by duo Grégory Blain and Hervé Dixneuf, the studio works within industrial as well as spatial design.

CATEGORY

Jug / Carafe

ENVIRONMENT

Indoor

COUNTRY OF PRODUCTION

Portugal

DESCRIPTION

Made in stoneware with glaze, the Tub Jug is an industrial take on the carafe. The design has a contemporary expression through its angled handle and wide opening, bringing both function and character to the design.

PRODUCTION PROCESS

Liquid stoneware clay is poured into plaster molds in which the Tub Jug is molded. The design is then polished with a wet sponge and fired at 1000° Celsius. After firing, the Tub Jug is dipped in a water-based solution that contains the color mixture, following which it is placed in the kiln again, this time at 1100° Celsius.

MATERIAL

Stoneware with glaze

CLEANING AND CARE

Clean with sponge and water. Dishwasher approved.
