Please read these instructions carefully and retain them for future reference to ensure that the product is used correctly. For your own safety, please study each step of this instruction manual first. Tradition is not responsible for any faults or damages caused by not following these instructions correctly. Do not modify this product in any way.

Contents

- A Opal shade
- B Canopy with metal ceiling bracket
- C Connection box

Tools needed

- Bulb type E27
- Small flat-head screwdriver for wiring

Safety precautions

- Dispose of plastic bag from packaging and do not allow children to play with it.
- Keep product well out of children's reach.
- The lamp is only intended for interior use.
- Consult a professionally qualified electrician if in any doubt.
- Disconnect the electricity supply at the fuse box, before commencing work.

Cleaning instructions

- Wipe surface of the shade with a soft, damp sponge or cloth, and wipe immediately with a dry cloth.
- Do not use any abrasive cleaning tools such as steel wool, scouring sponges or stiff brushes.
- Never use strong cleaning agents such as white spirit, turpentine, household glass cleaner or cellulose thinners.
- Only wipe the inside of the shade with a soft, damp cloth or feather duster.

For indoor use only
E27 maximum 100W
Bulb not included

Step 1

Ensure power supply is turned off and remove any existing lamp fitting. Locate the supply cable and ensure it is ready to be fitted to the connector block.

Mount the metal bracket (B) securely in the ceiling with screws and wall plugs, appropriate for the ceiling of installation.

Step 2

To determine the right suspension height for the lamp, pass the safety wire through the the metal bracket, find the desired height and make sure that the safety wire is blocked with the two screws. The excess wire can be cut after assuring the safety wire is blocked.

Pass the electrical cable through the metal bracket and tighten the two screws to secure it.

The safety wire must always be shorter than the electrical cable during and after installation.

Step 3

Use the terminal box to assemble the wires from the pendant with the wires from the power supply.

Step 4

Install the plastic canopy onto the metal bracket.

Step 5

Install light bulb.
